Tudor Lumber Price and Freight Reckoner

EXPLANATION.

The present methods used for arriving at the "DELIVERED PRICES" of lumber are open to costly error and often with considerable further loss in time.

It is hoped this "RECKONER" will be of no little assistance and profit to the lumber industry in attempting to satisfy this need.

It has been the purpose to keep this volume to a compact and practical size for the traveling man as well as the office desk; therefore, the range of "FREIGHT RATES" and the "F. O. B. VALUES" to $80.00 will cover about 90% of the needs, and additional F. O. B. values are covered as explained below.

The "half cent" rates have been provided for as shown below.

The "Weight" column indicates the weight per thousand feet.

The "Freight" column indicates the freight per thousand feet.

The top and bottom lines indicate the F. O. B. values.

The weight on all varieties of lumber will be found on the last pages.

DIRECTIONS BY ILLUSTRATION.

See "39 Cent Rate."

To find the **DELIVERED PRICE** of lumber valued at $26.00 at Mill, weighing 2700 lbs., see the $26.00 column and follow this column down (from the top line) or up (from the bottom line) till you reach the 2700 lbs. line, and you arrive at the delivered price ($36.53).

To find the **F. O. B. PRICE** of lumber valued at $85.00 on a 39c rate (weighing 2300 lbs.) the method is reversed; find the 2300 lbs. weight line, and follow this till you reach $84.00 ($83.97) then "run up" (or down) to the F. O. B. Mill line, and you will find $75.00, to which you add $1.00. (Since you started with $84.00 price instead of $85.00, similarly to reckon with any intermediate dollar, or fraction of a dollar, it can also be DEDUCTED from the next HIGHER figure, but addition is easier and more accurate than mental subtraction.)

For "½c Rates" add half the weight (in cents) to the figures given, viz., if 2200 lbs. add 11c to the above $36.53 or $36.64 if delivered on 39½c rate.

For any F. O. B. value in excess of $80.00—say $95.00—find the $80.00 column, on 39c, 2700 lbs., add (mentally) to the $90.53 the $15.00 and you get $105.53—and similarly for any other F. O. B. Mill or Delivered value.
